

# Patrick Canfield

## Programmer/Software Developer

Mobile: (321) 747-3001  
patrickcandoit@gmail.com

### Career Objective

- **Gain expertise in programming and software engineering in environments that foster creative problem solving and use this expertise as a researcher/entrepreneur.**

### Education

01. University of North Florida
  - B.S. Computer Science (Spring 2009)
  - University Honors Graduate
  - Dean's List (Fall 2007, Spring 2008)
02. University of Life
  - Currently studying Python, Ruby/Rails, Javascript/jQuery, and principles of software engineering and general problem solving.

### Experience

01. Participated in a "Transformational Learning Opportunity" at UNF
  - Using .NET (C#), developed a web-based alternative to an educational program that was traditionally delivered on paper. Was transformed into a proponent of FOSS.
02. Web Development Intern at Addison Commercial Real Estate, Inc.
  - 118 West Adams Street
  - Jacksonville, Florida 32202
  - [www.acrei.com](http://www.acrei.com)
  - January 2008 - June 2009
  - Using PHP, JS, MySQL and YUI, developed a home-grown content management system for the company website.
03. Programmer at Adtec, Inc.
  - 2231 Corporate Square Blvd.
  - Jacksonville, FL 32216-1921
  - [www.adtecinc.com](http://www.adtecinc.com)
  - July 2008 - November 2011
  - While writing an SNMP agent using C++ on Linux, introduced a RESTful API to the firmware of a product line troubled by "unmaintainable code". Product specialist said my work could "revive the product line". We'll see.
04. Web Development Contractor for Bonbi/Bimini
  - [www.bon.com.mx](http://www.bon.com.mx)
  - January 2012 - March 2012
  - Built a product promotion site using Ruby/Sinatra, jQuery, Sass and Compass.
05. Web Developer at PaySpan, Inc.
  - [www.payformance.com](http://www.payformance.com)
  - February 2012 - Present
  - Currently developing an internal application in Groovy to speed up repetitive tasks in my less busy time.
